

a MedTech Europe initiative

The MedTech Week

showcasing life changing technologies across Europe

Learn how your company can benefit from the advanced research tools at MAX IV and ESS

Join an afternoon of presentations from researchers and companies that are taking advantage of the analytical techniques available at MAX IV and ESS. Hear how these tools help create value how to get access to the facilities. The day will be rounded off by a visit to MAX IV Laboratory and an opportunity to make new contacts and network with people in the field.

The event addresses R&D Managers, industrial specialists and project leaders at companies who want to learn how they can benefit from analytical tools at large research facilities. It is also an opportunity for

policy makers that are interested in understanding how to connect industry with large research facilities.
