Collaboration across borders

EIT Health organization

Networking/Funding/collaboration Community

- 8 Regional Innovation Hubs
- Central office in Munich
- Co-funded by EU, partnership fees and programs
- Network of +150 partners from academia, industry, regions, hospitals and healthcare payers

Focus areas

A growing ageing population

An increase in infectious diseases, pandemic threats and antimicrobial resistance

Chronic diseases

Rising costs of healthcare delivery alongside spending constraints

Prevention, Personalized medicine and digitalisation

"Digital Health, MedTech and Biotech"

Based on current trends, the cost of healthcare is expected to double by 2050.

Our programmes: Accelerator, Education and Innovation

Accelerator

A catalyst to business growth to deliver transformative products and services.

Shortens the time-to-market for entrepreneurs, start-ups and SMEs, while creating new jobs and contributing to a thriving health economy.

Examples: Access to knowledge, Access to Market and Access to Finance

Education

Bridges the gap between academia and enterprise to upskill professionals on new innovative techniques, providing the practical knowledge and inspiration to deliver future innovation.

Engages learners across society, from citizens to established healthcare professionals.

Examples: Entrepreneurial training, Training of Healthcare professionals

Innovation

Connects bold approaches to the people who can make them a reality by turning them into a commercially-viable product or service.

Builds a task force of world-class experts from business, research and education.

Examples: High Value Care, DIGA, IPCEI and EHDS
